Why do you want to work at the library?

Our programs serve children, teens, adults, and families. Please describe your experience working with different age groups and how you adjust your communication or approach for each.

Are you comfortable leading off-site storytimes or outreach programs at schools or community locations?

This position involves leading pre-planned programs, storytimes, and activities. Describe your experience speaking in front of groups or facilitating activities. What makes you effective in that setting?

This role requires carefully following written program plans and maintaining strong communication with the Program Director. Describe a time you followed detailed instructions successfully and how you handle situations when clarification is needed.

Programs do not always go exactly as planned. Please describe how you would handle an unexpected situation during a program (for example, missing supplies, a larger-than-expected crowd, or a behavioral issue). How do you decide when to solve a problem independently and when to consult the Program Director?
